August 16 - August 27, 2021

Summer course "3D character animation" gives students ability creating interesting character in 3D! It may be a man, a robot, a monster or a dog, whatever you want. This course aims at bridging the gap between ideas and their digital representation by introducing students to the basics of three-dimensional modeling, rigging, skinning and making animation. It gives a unique opportunity to learn about character animation process and practice different approaches to develop an idea into a 3D character. Besides in the end you will see, how your character walks, runs and make some moving in game location.
