Degree-granting department: Department of Psychology and Pedagogy of Special Education.

Programme leader: Anna Akhmetzyanova, Head of the Department of Psychology and Pedagogy of Special Education, PhD, Associate Professor.

The degree programme aims at training competent professionals able to provide intervention assistance to the population following modern requirements of special and inclusive education.

Competitive advantages of the programme

The programme is developed on the basis of the analysis of the requests of employers and the professional experience of the programme graduates, taking into account the demands of the labor market and the requirements contained in the professional standard 'Teacher (pedagogical activity in the field of preschool, primary general, basic general, secondary general education) (educator, teacher)'. Programme is focused on preparing graduate students for research activities with continued studies in the graduate school.

Fields of expertise

Field of professional activity of graduates: education and science (in the field of preschool, primary general, basic general, secondary general education, vocational training, professional education, further education). Students focus on assessment and intervention techniques, educational and psychological support of persons with disabilities.

Curriculum

The curriculum is designed in accordance with the Higher Education State Standards. It includes compulsory courses and courses designed at KFU. The curriculum shows the logical sequence of mastering the blocks and sections of the programme (disciplines, practices, SFI (State Final Examination)), ensuring formation of necessary competencies.

Student teaching internship and career opportunities

Students can complete their student teaching internship in educational organizations, organizations related to the social sphere and health care.
