In the course of training, masters have to gain the certain marketing skills sufficient to be ready to monitoring of the food market and participation in creation of competitive production.

## Specializations within this programme

### FoodTech

#### PROGRAM DESCRIPTION

The FoodTech program offers multiple specializations, including Products for Active Aging and Sports Nutrition conducted entirely in English.

The specialization is based on modern principles of nutrition science and covers the issues of preserving, maintaining, and developing human body resources to adapt to the internal and external environmental conditions. Its main focus lies on the connection between nutrition and lifestyle – essential elements of high-quality modern life.
