The program is focused on training specialists in the field of customs regulation, combating offenses, customs clearance and control, foreign economic activity and cross-border trade.

The customs specialists carry out control and analytical functions, which means that customs officers should know the economy, the finances of the enterprise, the forms and principles of implementing foreign economic activity.

Graduates of the specialty "Customs" work in the central apparatus of the customs bodies of foreign countries (Mongolia, Kyrgyzstan, Azerbaijan, etc.), in the largest Russian and foreign companies actively engaged in foreign economic activity.

Key points and advantages:

- The professional activities of a specialist are related to the system of customs authorities, goods and vehicles transported across the customs border of the Russian Federation; physical and legal persons involved in their movement;
- Training is conducted with active use of information technologies on the basis of a specialized laboratory.
