Lobachevsky University has more than 50 years of experience in educating professionals in economics, management, finance and, more recently, entrepreneurship enriched by a favorable context of a historic industrial and commercial region, transformed nowadays into an area of knowledge and innovation.

Instruments, skills and attitudes acquired during the studies will allow students of economics to reach a sound professional level, and they will be highly sought after by private and state-owned enterprises and corporations, small and medium business entities, banks, insurance companies and other financial institutions, all levels of government.

Students graduating with a degree in Economics are highly qualified specialists combining both the theoretical and practical knowledge in all fields of economic activity, they are ready to carry out analytical, research, consulting, administrative and teaching work.

## Specializations within this programme

### International Economics and Markets

The International Economics and Markets major will assist students in developing a deep understanding of the global economic transformations and international economic relations as well as in acquiring practical skills useful for undertaking an economic activity abroad.

Knowledge of foreign languages is particularly important today as hundreds of thousands of businesses around the world are actively entering foreign markets.
