

Automation of Technological Processes and Production in Metallurgy

Siberian Federal University

Degree or qualification is awarded: **B.Eng. Automation of Technological Processes and Production in Metallurgy**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **no**

Price: **1 100 EUR per semester**

Programme webpage at the university website:

Siberian Federal University (School of Non-Ferrous Metals and Material Science) offers Bachelor's Degree Program "Automation of Technological Processes and Production in Metallurgy".

The program aims to provide students with extensive knowledge of fundamental concepts underlying automation of technological processes.

Participants will learn major aspects of analysis of diverse manufacturing situations and by the end of the program will be able to fix certain common technological problems.

Theoretical courses are combined with on-the-job training at Siberian and Far East industrial enterprises.

E-learning is an integral part of the program.
