Program Focus

The residency in Sociomedical Expertising may be applied for by people with an MD (MBBS) degree. The Program strives to train qualified physicians dealing with designing individual rehabilitation programs for people with disabilities.

Program Advantages

Throughout the residency the residents acquire professional competencies in designing individual rehabilitation programs for people with disabilities with regard to their mode, type, scope and terms as well as social and professional rehabilitation issues. Sociomedical experts officially confirm the state of disability in people, its grade, causes, whether it is permanent or temporary, and the time of its onset.

Career Opportunities

The Program gives its graduates access to careers in medical authorities, public hospitals, medical schools, higher educational medical institutions. Upon completion the graduates are given a chance to apply for a postgraduate course in Sociomedical Expertising and Sociomedical Rehabilitation.
