The Master's programme is presented in collaboration with S. Toraigyrov Pavlodar State University.

The objective of the programme is training qualified specialists able to adapt to the changing labor market situation and to continue their professional development and education. Innovative nature of the programme is based on a universal academic environment, on using well-equipped laboratories and computer education methods, on informatization of all elements of the academic process, and on applying modern education technologies.

The full-time programme duration is 2 years (4 semesters).

Admission conditions.

Admission is competitive, students with Bachelor's degrees or higher are eligible. The admission tests are an exam in Physics and an interview.
