The education program is focused on training of highly qualified specialists in the field of intercultural professional communication and medical translation.

Training is practice-oriented and is aimed at implementation of skills of intercultural communication in the sphere of medicine, study of verbal and non-verbal markers of social status in medical communication, comparison of Anglophone and Russophone professional environment in a globalizing world.

**Program staffing:** doctors and candidates of sciences, staff members of the Institute of Linguistic Research of the Russian Academy of Science.

## Features of implementation:

- up-to-date education technologies and methods: interactive lectures, group projects, individual and team presentations, research seminars,
- possibility to study the course of interest from the wide range of optional disciplines.

**Potential and actual business partners:** healthcare management bodies of various levels, academic and institutional research organizations, medical and pharmaceutical organizations, educational organizations of higher and continuing professional education.

Graduates of the program are in demand in the sphere of intercultural professional communication in the fields of medicine and pharmacy as specialists; in healthcare organizations, public national and international organizations in the field of health protection, professional medical associations as translators and simultaneous interpreters; in higher and continuing professional education institutions as teachers of linguistics, translation and culture.

The program provides possibility to learn one or more additional vocational programs, to get simultaneously continued higher education.

Graduates of the program have the opportunity to easily design their professional career, in particular to study for a Ph.D. degree.
