This course aims to teach you the methods for collecting, processing, analysing and interpreting texts based on existing scientific methods; to help you develop skills in proofreading, editing, systematising and commenting on different types of text; to help you develop skills in developing dictionaries and other language and literature reference works, producing periodicals; to teach you skills in conducting project activities - including educational, cultural and awareness-raising, and science-popularising projects.

Graduates of this course will become broadly educated humanitarians with the skills required to systematise, process and produce texts, fluent in languages and aspects of cross-cultural communication, knowing the laws of correct speech and the techniques of effective communication.
