The Strategic Corporate Finance (SCF) programme is for those who want to simultaneously gain a deep, modern understanding of finance, as well as the broad, professional vision necessary for the modern-day financier. The programme focuses on studying the contemporary theory and global practices involved in corporate finance. At the same time, the SCF programme provides fundamental knowledge in all areas of finance and economics, which ensures that graduates have wide career options. Our alumni work at leading consulting companies, investment banks, M&A advisory firms, investment funds, companies of the real sector, and research centres. The SCF programme's high quality is provided by its instructors, among whom are leading Russian academics, including those with PhDs, visiting professors from Western universities, and finance practitioners from some of the largest international companies. In just two years, students are able to apply themselves and build their own personal network of professional contacts.
