

# Electronic Engineering

National Research University – Higher School of Economics

Degree or qualification is awarded: **Master degree in Electronics and Nanoelectronics**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **285 000 RUB per year**

Programme webpage at the university website: <http://www.hse.ru/ma/ee>

Programme curator: **Smirnova, Galina**

Tel.: **+74957729590 (add 15213)**

Engineering in Electronics is one of the most popular areas for Master's-level studies at leading universities around the world. This Master's Programme aims to train specialists in the field of research, development and practical application of modern reliable radiation-resistant electronic components, tools and technologies for information and telecommunications systems, transport and space technology, energy, computer, and medical technology. Training is conducted in collaboration with leading organizations and research institutes of Rostec, the Russian Federal Space Agency and the Russian Academy of Sciences.

## Specializations within this programme
