The aim of the programme is to train experts of a new type, people who are able to manage projects at all stages of implementation, to make effective decisions regarding resources and organizational support, to integrate both innovative and investment processes and to carry out complex planning of a company's project portfolio in order to achieve sustainable development.

A competitive advantage of the programme is the focus on the investment and innovative components of project management, on the training of experts who understand both project managing procedures and issues of interaction with investment institutions and markets, who know the tools for interacting with the external environment during project work of different sizes. Programme graduates will be competent in the evaluation of venture investment projects and direct investment projects.
