Objectives of the program

- To enhance professional competences of economics students who are thinking of employment by international companies in Russia and Russian companies and organizations involved in international cooperation;
- To provide the participants with intercultural competences of business communication in Russia with representatives of other cultures when solving a wide range of professional management tasks.

WHY study this International semester program?

- The study plan includes the disciplines which provide students with the crucial professional competences;
- The program is totally taught in the English language, which guarantees a truly international environment and under the guidance by the teaching staff of Russian and foreign universities;
- The program is recognized as a semester abroad for foreign participants and as a springboard for the international academic mobility for Russian participants and increases opportunities to participate in international research projects and international grants;
- Studies in St.Petersburg in one of Russia's leading research universities allow students to get to know the country's rich historical and cultural heritage and to learn the socio-economic conditions of running a business in Russia;
- The program ensures the development of professional intercultural communication skills in the English language, which provides Russian and foreign graduates with an additional advantage in the international labour market.

Program dates: September – mid-December

Participants: International and Russian students

Prerequisites: minimum two years of Bachelor's university studies in Economics or Management and good command of English (from B2, CEFR)
