

Astroparticle Physics

Novosibirsk State University

Degree or qualification is awarded: **Researcher, teacher**

Language of study: **English**

Mode of study: **full-time**

Duration: **3 years**

Availability of free education: **yes**

Price: **5 500 USD per year**

Programme webpage at the university website: <https://english.nsu.ru/admission/programs/phd-programs-english/>

Programme curator: **Lyudmila Chervinskaya**

Tel.: **+7-383-3634292**

E-mail: foreign@lab.nsu.ru

Astroparticle Physics is one of the leading subjects of NSU for future research and study. It is an interdisciplinary field uniting astrophysics, cosmology, and particle physics, aims at addressing fundamental and phenomenological issues from the origin and evolution of the universe to the study of dark matter and dark energy.

The program aims at training highly qualified specialists and strategic development of astrophysics in Novosibirsk by involving young scientists in the research work in the Novosibirsk State University and research institutes of the Russian Academy of Science.

Specializations within this programme
