

Safety of Automated Systems

National Research Nuclear University MEPhI (Moscow Engineering Physics Institute)

Degree or qualification is awarded: **Bachelor degree**

Language of study: **Russian**

Mode of study: **full-time, part-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **91 000 - 110 900 rubles per semester**

Programme curator: **V. G. Ivanenko**

Tel.: **Contact name: Olga N. Petukhova, Phone number. +74957885699, ext. 8045**

E-mail: ONPetukhova@mephi.ru

The goal of the program is to prepare students for work related to comprehensive protection of informatization objects, data protection, information technology. Students will have universal and subject-specialized competences, contribute to their social mobility and stability in the labor market.

The area of professional activity

Different spheres of science, engineering and technology, including information protection, information security and cyber security of information objects information; research, design and development of information security systems of information objects.

Specializations within this programme

The objects of professional activity

Automation, telecommunication, information and information-analytical systems, information resources and information technologies in the conditions of existence of cyber threats in the information sphere; Technology information security of automated systems; management processes of information security of protected objects.
