

Design and Technology of Electronic Means

Far Eastern Federal University

Degree or qualification is awarded: **Bachelor**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **130 000 rubles in year**

Programme curator: **Oksana Blazhilina**

Tel.: **+74232652424 (#2206)**

E-mail: interadmission@dvfu.ru

The program includes the study of disciplines, allowing to carry out theoretical calculations, to perform modeling and design of radio electronic devices for various purposes, to apply modern element base of electronics (microprocessors, controllers, digital sensors, etc.), to build mathematical models of technical objects and systems for the effective use of computer technology in the development of electronic systems, to develop non-standard components for the electronic systems and to to organize their production. Emphasis is placed on the underwater robotics.

Profile of "Design and technology of electronic means"
