Students-historians can be distinguished by a high level of erudition - from computer science and economic history to the history of foreign policy and culture. Students with Bachelor's degree in History have knowledge in the field of domestic and foreign history, economic and political history, the history of public administration and culture.

A special feature of training of Bachelor's Degree in History is a comparative approach. The graduates can work in positions that require higher education. The main areas of activity are teaching, expert-analytical, organizational and managerial areas. Graduates have the opportunity to apply their knowledge in scientific research, expert-analytical and cultural and educational spheres, and educational activity.

Specializations within this programme
