

Photonics and Nanoelectronics (in English)

Peter the Great St. Petersburg Polytechnic University

Degree or qualification is awarded: **Master of Physics**

Language of study: **English**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **286 000 rubles**

Programme webpage at the university website:

Photonics and Nanoelectronics are cutting-edge issues playing a crucial role in the technology development of the future. The MSc Program of Photonics and Nanoelectronics is designed to provide students with comprehensive knowledge of the state-of-the-art experimental techniques and theoretical methods in this area of expertise. Since the primary target audience of this course is international students the Master's program in Photonics and Nanoelectronics is fully taught in English.
