

Information Technology of Geological Support for Geo-Technologies

National University of Science and Technology MISIS

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **245 400 rubles/per year**

Programme curator: **Alexander Gorbatov**

Tel.: **+7 499 230-24-04**

E-mail: avgorbatov@mail.ru

This master's degree program is intended to prepare highly qualified experts in two areas: information technology and geology. Modern mining plants are complex systems in terms of organization and technical support, and information technologies play a very important role in such systems. Experts with a background in IT and mining engineering are in great demand in mining industry.

Specializations within this programme

Master in IT Geo-Technology Geological Support
