

Metal Forming

National University of Science and Technology MISIS

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **278 000 rubles/per year**

Programme curator: **Sergey Galkin**

Tel.: **+7 495 955-01-59**

E-mail: glk-omd@yandex.ru

The program focuses on R&D in the development of advanced competitive resource-saving metal forming technologies such as technologies for rolled products of high-alloyed steels and alloys, nonferrous metals (titanium, zirconium and other alloys), prospective technology design and modeling, and creation of new types of products. For R&D purposes students use the equipment at Scientific and Production Centre at the Metal Forming Department (MFD) equipped with unique deformation complexes, at the laboratories of R&D companies, and the metallurgical and defense enterprises.

Specializations within this programme

Researcher and lecturer on metal forming
