The programme focuses on the main areas of research carried out by the institutes of the Russian Academy of Sciences, renowned for their work in the physical sciences and boasting strong international ties. The programme provides undergraduates with professional training in the research areas of these institutes, as well as the opportunity to participate in projects supervised by their head scientists. The course includes visits and courses at leading international universities and scientific research centres. Students graduate as highly qualified specialists with excellent prospects in academia, both in Russia and internationally.
