Les cours de courte durée

Autres programmes

Samara University was founded after a merger of two famous institutions of higher education — SSAU and SamSU. Today, it is a unique science and education center that trains experts in the fields of aerospace technologies, fundamental technical, natural and humanitarian sciences.

The united university has 16 faculties. Students study cutting-edge biotechnologies design materials with specific properties, and develop new nanostructured materials. They can build and launch their own satellites into orbit, participate in designing spacecraft, and take part in various scientific experiments.

Additionally, students also study fundamental social processes, work on preserving cultural and linguistic heritage,

and train to become university professors and researchers.

They can make use of a 3D printer, the Sergey Korolev super-computer, and even their own test aerodrome. In the University's design bureaus, students build Yastreb light aircraft, work on models of missile carriers that they regularly launch at the Biscarros Testing Grounds (France). The team of Samara University is the only Russian participant in the C'Space Festival.

## **Les succès des étudiants**

## **Les partenaires internationaux**

## **Les Olympiades**

**[Time to study in Russia!](#)**

**Dates and locations of tests are available on the Rossotrudnichestvo website.**

SSAU is a member of the consortium of leading Russian technical universities, which holds the "Time to study in Russia!" academic competition in various countries. The winners have the right to study at one of the universities on a Russian government funding (quota). The competition is held under the aegis of Rossotrudnichestvo and with the support of the Russian Ministry of Education and Science.

## **La faculté préparatoire pour les étrangers**

## **Le soutien des étudiants internationaux**

Various orientation and on-boarding programs are offered to incoming international students at Samara University, including athletic and cultural events. International students at Samara University are offered visa support throughout their study program at Samara University.

## **La vie quotidienne des étudiants internationaux**

The Samara University campus, more than 200,000 square meters in area, has 13 classroom and research buildings, 8 dormitories, a sports complex, and a pool. Visiting faculty and young scholars reside in an apartment building with 60 apartments.

There are more than 2,000 computers on campus with an Internet connection speed of 40 Mb/s.

The University also has a health retreat, resort facilities and a club.

## **Les événements sociaux et sportifs**

**There are dozens of various clubs and students unions at Samara University:**

- 16 varsity teams;
- 9 youth science clubs, including 5 design bureaus;
- 23 special-interest clubs;
- Various clubs and unions (paragliding, driving, chess, go games, yachting, rugby, parachuting, hiking);
- University mass media (a TV station, a radio station, a photo club, newspapers).

Additionally, students at Samara University can participate in many events and festivals (Fall Ball, Ethnic Festival, Student Spring, Student Autumn, etc.).

## Emplois pour les diplômés internationaux
