E-mail: summerschool@spbstu.ru

The course introduces students to the theoretical foundations of machine learning and data science, as well as to the solution of real business problems with the help of computer vision, classification and regression algorithms. The optimal balance between theory and practice provides both a good foundation and the ability to apply knowledge in practice.

Program dates:

Arrival: Jan 25 – 26, 2020

Classes:

- Jan 27 – Feb 01, 2020 (in St. Petersburg)
- Feb 02 – transportation from St. Petersburg to Moscow
- Feb 03 – Feb 07, 2020 (in Moscow)

Departure from Moscow: Feb 08 – 09, 2020

The cultural program includes:

- Excursion to the Hermitage, one of the world's largest and oldest museums of fine art;
- Pub Quiz;
- Full-day Wintry Event with sleigh riding and skating (optional for extra price).

The extracurricular activities in Moscow are to be announced yet.
