Why should you choose this program?

- You will be aware of the latest trends in the financial sector;
- You will have knowledge of decreasing risks and applying appropriate tools in different situations;
- You will gain an understanding of the technical aspects used in financial markets: from the financial theory to showing various applications of the theoretical concepts;
- You will get necessary skills and experience of econometric modeling as well as programming;
- The program provides education in English. However, you have a good opportunity to get acquainted with Russian culture and make useful contacts, search for opportunities and stay in touch;
- Program is implemented with participation of professors from leading international universities and experts from industry;
- You also have opportunity to apply to 6-month international internship at one of the partner universities.
