With more than 70 years of history, SUSU has earned its well-deserved prestigious reputation in the region. Today SUSU has more than 40,000 students in Bachelor's, Master's, and Postgraduate Programs, including 2,000 foreign

nationals from 37 countries. More than 3,000 lecturers are responsible for the quality of the educational process. Its location in the heart of Eurasia, at the crossroads of major trade and cultural routes, along with its welcoming multicultural environment, an astonishing combination of developed industry and unique natural beauty make our university the perfect place to study, make new discoveries, and develop international cooperation.

Today the university includes 32 departments and institutes, 7 world-class laboratories and 33 research centers. Leading areas of research such as aerospace science, engineering, and supercomputer technologies bolster the university's leading position in the international research market.

International cooperation plays an important role in the strategic development of the university. Every year, SUSU is visited by foreign professors, lecturers, and researchers, who come to share knowledge and experience. The alumni of SUSU number more than 240,000 people. The vast majority of them have jobs related to their university major at some of the largest Russian and foreign companies. A high level of research and scientific achievements as well as a consistently stable performance in terms of the quality of education help the university to maintain its leading positions not only in national (Interfax - 62, ExpertRA - 42), but also in global rankings (QS-BRICS - 151-200, RankPro - 412).

International partnership

SUSU is actively involved in international cooperation in science, culture, and education. In 2015, the university signed over a hundred documents on cooperation with several countries: Kazakhstan, Bulgaria, Germany, USA, China, Finland, Czech Republic. SUSU interacts with the branches of the Federal Agency for the Commonwealth of Independent States, Compatriots Living Abroad and International Humanitarian Cooperation (Rossotrudnichestvo) worldwide.

The university is an active member of the Association of Technical Universities of Russia and China (ATURK) and takes part in the work of the Shanghai Cooperation Organization as well as other scientific and educational institutions.

SUSU runs summer schools, partnership double degree programs with universities of China as well as joint Master Programs with the University of Clark (USA) and Lappeenranta University of Technology (Finland). All the programs are available both to SUSU students and to foreign nationals.

Preparatory department for foreign applicants

Other types of training

Preparatory Department SUSU

Preparatory Department's nine-month foundation programme includes an intensive course in Russian and study of several field-specific disciplines.

The course starts in September and ends in June. In the first semester, students learn Russian four to five hours a day. In the second semester, field-specific subjects are added to the study plan depending on the chosen University department and future occupation.

South Ural State University Preparatory Department offers the following fields of study:

- economics
- medicine and biology
- humanities
- natural sciences
- engineering (includes engineering and technology)

After completing the course, students get a Russian language certificate to apply for university degree programmes.

Support of foreign students

Association of International Students

The Association of International Students is an all-Russian student organisation which aims to:

1. help new student adapt to the learning environment,
2. introduce them to Russian culture,
3. promote international friendship.

As of today, we have the status of the South Urals Association of International Students. AIS arranges and holds national holidays and cultural events at the university such as Nowruz, Arab Culture Day, African Culture Day, Tea Ceremony, International New Year, Cooking Festivals, sport competitions (arena soccer, basketball, multidiscipline competition, tennis etc).

Our tutors are SUSU international students who are willing to help the newcomers. They have lived in Russia for several years studying at our university. Any student can ask them questions about applying, education, accommodation and SUSU campus life.

You have questions? Write to applicant@susu.ru

Association of International Graduates

The SUSU Association of International Graduates helps graduates stay connected to the university, exchange experience and realise their professional and creative potentials. Membership in the Association keeps you up to date on SUSU current affairs and successes. AIG membership is open to any international SUSU graduate.

Everyday life of foreign students

SUSU's dormitory complex is rated among the best in Russia in terms of living conditions as well as cultural and sporting opportunities. The campus has 8 comfortable apartment-type dormitories equipped with everything to cater to the students' household needs. One room is usually shared by two or three students. Each group of rooms has a bathroom. The campus also has canteens, shops, cafes, and hairdresser's parlors. The university's academic buildings, swimming pool, and sports center and facilities are right next to a pine forest. This is very convenient for students, lecturers, and other staff of SUSU who love to go for a jog in the morning or in the evening, have a breath of fresh air, and enjoy a variety of outdoor activities. High quality medical care is provided at the university clinic and the "House of Health" specialized medical center. Both the university clinic and an additional medical center are also located close to the university.

Leisure and sport events

SUSU boasts modern, superbly equipped professional sports facilities. Such facilities include a basketball court, volleyball court, wrestling courts, a weightlifting, boxing and kickboxing courts equipped with state-of-the-art exercise machines, and 4 workout facilities. The university invites those who enjoy aerobics and shaping to the University Shaping Center and aerobics hall. SUSU is the only university in Chelyabinsk that has its own unique Olympic-size (50-meter long) swimming pool. The SUSU track-and-field stadium has a 200-meter track with special synthetic turf. When necessary, the center of the arena can be transformed into two tennis courts as well as a hockey rink with seats for the audience. Situated in the picturesque Southern Urals, on the banks of the Bolshoy Sunukul, are the university's Nauka resort, the Olympus student recreation camp, where students have the opportunity to relax and improve their health, and Berezka ("Birch"), a camp for the children of faculty and staff.

The university has unique creative laboratories such as the University Hall of Arts, which regularly hosts exhibitions of

artists from the Urals, other Russian regions, and foreign countries, the Student Broadcasting Company, the Center for Creativity and Leisure Activities, the Student Philharmonic, the Virtual Branch of the State Russian Museum, the Museum of the History of the South Ural State University and Russia, the Museum of Peoples and Technologies of the Urals, an exhibition center, an advertising technology training and business center, and many other facilities, each of which has some sort of interesting historical or cultural aspect. The SUSU Scientific Library is the most comprehensive academic university library in the region. The library's collection includes 3 million items. Utilizing web-based technology, the library provides researchers and students with access to electronic catalogs, electronic editions of educational and methodical publications of SUSU as well as thesis abstracts. The SUSU Publishing Center has the most modern printing equipment available. Since 2002, the university has had a TV and radio training center. Since 2005, it has been home to a unique broadcasting company, the first of its kind in Russia, called SUSU-TV that is staffed exclusively with students. In 2006, the University launched its first online radio studio.

Employment of foreign graduates

SUSU graduates are in great demand at world-class corporations such as Emerson, IBM, Knauf, and SMS Siemag.
