

Geology

Kazan (Volga Region) Federal University

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **no**

Price: **169 200 RUB per year**

Programme webpage at the university website: <https://kpfu.ru/geo>

Programme curator: **Rauf Sabirov**

Tel.: **+78432337027**

E-mail: admission@kpfu.ru

Preparation of geologists at the University has been carried out since 1865. Many outstanding geologists have been trained, scientific discoveries of the world level have been made - the establishment of the law of correlation of facies (N.A. Golovkinsky), the establishment of the basics of cyclostratigraphic analysis (M.E. Noyinsky), the establishment of the Kungurian stage in the world stratigraphic scale (A. A. Shtukenberg), the establishment in the world stratigraphic scale of the Ufa and Kazan stages (A.V. Nechaev)

Training of geologists in the field of prospecting, evaluation and exploration of mineral deposits is carried out on a modern laboratory base equipped with world-class equipment. Graduates successfully work in geological exploration organizations engaged in prospecting and exploration of mineral deposits in Russia and abroad.

Many students during the study period receive proposals for further employment.

Graduates of the programme successfully arranged both in oil and in engineering and geological companies engaged in drilling for water, studying the soil conditions of construction sites, monitoring the environmental situation of the environment.

Geologists are trained in the following profiles:

- GEOLOGY AND GEOCHEMISTRY OF FOSSIL ENERGY
- GEOLOGY
- GEOPHYSICS
- ENGINEERING GEOLOGY AND HYDROGEOLOGY

Graduates can continue their studies in various Master's programs of the Institute, among which there are international master's double diplomas programs with foreign universities (Freiberg Mining Academy (Germany), French Petroleum Institute, Southwest Petroleum University China, etc.)

Address of the Institute of Geology and Petroleum Technologies:

420008, Kazan, Kremlevskaya 4/5, Institute of Geology and Petroleum Technologies

Tel / fax: 8 (843) 233-71-61

E-mail: geofak@kpfu.ru

Specializations within this programme

Geology and geochemistry of fossil energy

Geology

Geophysics

Engineering geology and hydrogeology
