Russian Language is a program for all those who wish to study Russian language. In our classes, we will provide you with materials to learn and speak Russian sounds, words and phrases. You will also learn how to read and write in Russian, as well as to build and understand simple texts. Students will also be taught how to speak about themselves and their families in order to support conversation in everyday situations such as in a shop, bank or pharmacy e.g.

During this 2 semesters programme students take 20 hours of classes each week.

The aim of the course is to constantly improve the level of a student's linguistic skills in Russian using materials to promote creative thinking and individual learning. Taking from over 25 years of experience in teaching Russian Language to International students, this has proven to provide the best results for expanding student's vocabulary.

At the end of the course, all students are invited to be examined for the Russian government's certificate I level of Russian language (B1) under the system TORFL, which is the Russian Language equivalent of IELTS in comparison to the English Language system.
