

Technological Machines and Equipment

National Research ITMO University

Degree or qualification is awarded: **M.S. in Mechanical Engineering**

Language of study: **Russian, English**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **262 000 RUB per year**

Programme webpage at the university website:

Specializations within this programme

Food Production Processes and Equipment

PROGRAM DESCRIPTION

This corporate Master's program trains specialists who conduct the development of commercially valuable products based on modern methods of experimental research, design and modeling.

The following specializations are available as part of the program:

- Biothermohydronechanical and Supercritical Fluid Principles of Creating Processes and Apparatus for Food Technologies
- Rheology and Hydrodynamics of Multiphase Flows
