

Materials Engineering

National Research Tomsk Polytechnic University

Degree or qualification is awarded: **Researcher. Teacher-researcher.**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **112 224 Rubles/year**

Study of materials engineering, including:

- synthesis of new materials;
- design and operation of manufacturing equipment for experimental and series production of materials and products;
- development of methods and means of materials quality control and technical diagnostics of manufacturing processes;
- complexes of structural and physical properties of materials (mechanical, thermal, optical, electrophysical and other) corresponded with the objectives of their practical use.

Specializations within this programme
