The programme is aimed at training bachelors specializing in state and municipal management, improving the efficiency and quality of the state (municipal) services, ready to act in the interests of civil society and the state in accordance with the requirements that apply to state and municipal employees in modern context of development and modernization of the economy and society.

Specializations within this programme

State and Municipal Administration

The learning process is focused on the synthesis of modern domestic and foreign experience in state and municipal government with the active use of interactive teaching methods.

The undergraduate programme focused on competence-based approach will teach students how to make executive decisions, bring them to life, and assume responsibility for such decisions in the area of state and municipal government, as well as economic, social, cultural, legal and other spheres of society.

The programme contributes to the formation of both professional and personal qualities in students, such as the ability to work individually and in a team, the ability to be creative in problem solving, the ability to build and defend your own point of view, backed by the theoretical knowledge and practical skills.

The programme is designed in accordance with the qualification requirements for state and municipal employees, officials of the regulations stipulated by the authorities at various levels.
