

Control in Engineering Systems

Peter the Great St. Petersburg Polytechnic University

Degree or qualification is awarded: **Bachelor of Management in Technical Systems**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **210 200 - 219 600 rubles**

Programme curator: **Mr. Alexei Vasiliev**

Tel.: **+7 (812) 297-16-28**

E-mail: vasiliev_alex@spbstu.ru

Basics of control systems application in integrated production and technological complexes, providing for adequate control environment for automated production control.

Specializations within this programme

Intelligent information processing and control

This course is aimed to provide students with basic knowledge of artificial intelligence systems and intellectual distributed systems, as well as applied aspects of implementation of methods, models, and technologies of this field of studies for scientific and applied tasks. This course is particularly focused on exploration of latest concepts and models of the modern theory of artificial intelligence, and is based on the latest advances of the leading scientific schools inside and outside Russia.
