The program includes 4 blocks: disciplines (modules), research and practice, state final attestation. Training passes according to individual plan, formed by a graduate student in conjunction with a scientific leader in accordance with the subject of scientific research. During training, graduate students are studied as highly professional courses, and general educational disciplines, aimed at developing universal competencies. Based on the results of the training, graduate students prepare final qualification work. Training is conducted in accordance with the following programs:

- Economic sociology and demography;

- Social structure, social institutions and processes;

- Sociology of Culture;

- Management Sociology.
