Field of study: "Management".

Duration of training: 4 years, 240 credits.

Course delivery language: russian & english.

Basic department: Management of Business Projects (No. 72).

The program of continuous training: Bachelor's Degree – Master of Science – Post Graduate.

The program is aimed at preparing highly qualified managers of the international level to work in Russian and foreign organizations in the field of project management, intellectual property and commercialization of research and development (R&D) in the interests of innovative development of high-tech sectors of the domestic industry in the age of economic globalization.

The educational program provides in-depth theoretical and professional development in the field of investment and innovative project management based on international standards and advanced software, as well as in the field of mathematical, strategic, and economic analysis of business processes. Students use unique software packages for modeling and project management and business process management.

In the course of the educational program, students are provided with opportunities to undergo practical training at leading high-tech enterprises, including those of the State Atomic Energy Corporation (Rosatom), Rosenergoatom Concern, Joint-Stock Company Atomstroyexport, JSC Technobexport – brand name TENEX; at Dollezhall Research and Development Institute of Power Engineering (Moscow), Greenatom CJSC (Moscow), etc.; as well as at a number of commercial structures, such as Business Systems Development, a member of CroweHorwathInternational – one of the leading auditing and consulting networks in the world, at major banks and insurance companies.

Specialization in Management involves students in a number of Federal and Industry research programs, for example, "The Information Society (2011-2020 years)", "Innovative development program of Rosatom", "Research and Development on Priority Directions of Scientific-Technological Complex of Russia for 2007-2013", "Information Technology Transformation Program of Rosatom for the Period of 2010-2014", etc.

The EAI staff contributes to the employment of graduates at enterprises and institutions, with which the EAI has agreements on cooperation in the training and employment of personnel. The Employment and Career Center of the MEPhI helps graduates in finding suitable positions.
