The educational program is highly interdisciplinary and multicomponent. It includes the disciplines of natural science, social humanitarian, defectological and speech therapy.

The practice-oriented nature of training from the first year allows senior students to work as speech therapists in institutions of the city and receive not only skills, but also salary.

From the first semester, students are included in promising research groups, considering the research activities of the department. Project thinking is developing during the training, the willingness to use acquired knowledge it in any kind of activity.
