Programme Focus:

The master's programme is based on the training of highly qualified accountants and auditors, analysts and researchers to work in international companies, large, medium and small business organizations of various industries.

The main goal of the programme is the training of personnel for organizational, managerial, information and analytical, research and entrepreneurial activities in business entities of various organizational and legal forms, operating in different sectors and areas of activity, as well as organizations and institutions of the non-production sphere.

Programme advantages:

The overwhelming majority of teachers have extensive experience in practical work, many are concurrently chief accountants, auditors, tax advisers.

The programme introduced a number of elements that allow you to take into account all changes in accounting, auditing, taxation and international financial reporting standard

Students have the opportunity to undergo practical training and internships in the world's leading auditing companies with which the cooperation agreements have been concluded.

The programme is tailored to the requirements of employers and takes into account the provisions of professional standards.
