

# Mathematical Analysis and Modeling

National Research Tomsk State University

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **no**

Price: **196 700 RUB per year**

Programme webpage at the university website: <http://cjiap.tsu.ru/node/70>

Programme curator: **Aleksandr V. Starchenko**

Tel.: **+7 (382) 252-97-40**

Double Master's Degree Program run jointly by Tomsk State University (TSU) and its international partners – Laboratory of Mathematics at Rouen University (Laboratoire de Mathématiques Raphaël Salem, University of Rouen, France), Rouen National Institute of Applied Sciences (Institut National des Sciences Appliquées de Rouen, France) and University of Salerno, by the staff of the Chair of Mathematics and Computer Science (University of Salerno, Italy).

## **More details about the departments and chairs involved in the program can be found at:**

- The Program is designed to train highly-qualified specialists capable of conducting project-based, scientific, information, and research activities for Russian and European commercial organizations and scientific and research centers.

## **Upon successful completion of the Program, students are awarded the degree as follows:**

- Master of Science (MSc) in "Mathematics";
- Master of Mathematics in "Mathematics. Computer sciences" (Russia).

## **Entrance tests:**

An applicant is enrolled on a competitive basis according to the results of entrance examinations: written test and an interview.

Requirement for candidates: fluency in English.

## **Specializations within this programme**
