Master's Program provides theoretical and practical education in the field of linguistics and methods of teaching foreign languages and cultures. Professionals in this area are in demand in the context of involvement in the Bologna process, which highlights multilingualism and multiculturalism.

The disciplines of this program are based on the latest achievements in linguistics and computer technologies and prepare professionals for work not only in linguistics, but also as teachers and researchers at classical universities, pedagogical institutes, technical colleges and other educational institutions.

Admission.

Applicants with higher education can enter the program. Admission to the program is carried out on a competitive basis following the results of admission tests:

- Foreign language (English, German, French)
- Interview
