Summary: The aim of the education program is the study of a full range of religious disciplines related to the development of skills and competencies in the study of religions, their description, and the management of state-religious processes.

Program description:

Program “History and Anthropology of Religion” includes the study of a full range of religious disciplines: students study a range of courses such as religious studies, philosophy of religion, the history of religion, as well as sociology of religion, anthropology of religion, and learn to identify ways of developing religious systems.

Students have the opportunity to internships in structures relevant to their interests, including executive authorities, regional councils for state religious expert examination, etc.

Graduates of the program are well prepared to begin their careers in organizational and managerial activities, socially-informative work, advisory work, implementing managerial activities.

Analytical and expert activity in the field of state-confessional, ethno-confessional, inter-religious and socio-political relations has particular importance today.

Specializations within this programme
