Programme curator: **Rauf Sabirov**

Tel.: **+78432337027**

E-mail: admission@kpfu.ru

Professional Fields:

- Contemporary applied and fundamental biomedical research;
- Expertise activities at organizations specializing on Biomedical science;
- Teaching activity in secondary education and higher education institutions;

Knowledge and skills to acquire:

- Cellular technologies;
- Methods of proteomic analysis
- Methods of molecular-genetic analysis and transgenic technologies;
- Methods of working with laboratory animals;
- Methods of medical biochemistry and cytology, histochemistry, immunocytochemistry.

Graduates' career opportunities:

Working at:

- Laboratories of the Ministry of internal affairs and the Investigation Committee of the Russian Federation;
- Biochemical laboratories of the Ministry of Healthcare;
- Perinatal centers;
- In vitro fertilization centers;
- Clinical immunological and microbiological laboratories;
- Pharmacological companies
