Computer Systems Engineering and Informatics (Bachelor)

Saint Petersburg Electrotechnical University "LETI"

Degree or qualification is awarded: **Bachelor**

Language of study: **Russian**
Mode of study: **full-time**
Duration: **4 years**
Availability of free education: **yes**
Price: **190 000 – 199 000 rubles per year**

Programme webpage at the university website:

Programme curator: **Maria Titarenko**
Tel.: **+7 812 234-35-53**
E-mail: mytitarenko@etu.ru

Key points

1. Students can take part in innovative developments held by the Departments and the Faculty;
2. Students can take part in the double degree programs;
3. Students can apply to Master's programs;
4. Students have wide opportunities to fulfill their potential.

Graduates know

- Technologies of algorithm design and software development;
- Basics of computer architecture and functions, operating systems, computer networks and databases;
- Methods and tools of computer graphics and information security.

Graduates are able to

- Set a task and develop an algorithm for its solution;
- Develop software-hardware tools in computational and information systems and network structures;
- Develop and support databases.

Graduates are proficient in

- High-level programming styles and languages;
- Operational skills and administration of operating systems;
- Configuring local networks, implementing network protocols using software tools.

Specializations within this programme
