

Electrochemistry

Immanuel Kant Baltic Federal University

Degree or qualification is awarded: **Master**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **yes**

Price: **1 200 USD per year**

Programme webpage at the university website: <https://www.kantiana.ru/education/programms/>

Programme curator: **CHibisova Natalia Viktorovna**

Tel.: **+70412595595 (add 5005)**

E-mail: NCHibisova@kantiana.ru

Training of specialists in the field of technology of electrochemical processes and protection against corrosion.

Master graduated from the Program "Environmental Chemistry, Chemical Expertise and Environmental Safety" should be equipped with the following professional skills:

- Conducting independent research projects in the field of technology of electrochemical processes and protection against corrosion, requiring fundamental interdisciplinary knowledge and be familiar with modern experimental methods;
- Conducting expert analysis on specific issues of technology of electrochemical processes and protection against corrosion;
- Developing business plans and conducting preliminary market research for commercialization of intellectual property;
- Conducting research in the field of technology of electrochemical processes and protection against corrosion.
