

Applied Mathematics and Informatics

Petrozavodsk State University

Degree or qualification is awarded: **Master**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **2 years**

Availability of free education: **no**

Price: **168 000 RUB per year**

Programme webpage at the university website: <https://petrsu.ru/specialization/142>

Programme curator: **Aleksandr Rogov**

Tel.: **88142719621**

E-mail: rogov@petrsu.ru

The education program is designed to train highly qualified specialists working in research, project management, industrial and technological, organization and management, and education.

The first part of the program includes courses on the contemporary issues of mathematical analysis, software engineering and network technologies. The courses on network technologies and services are taught in English. The second part of the program is research and educational work under the guidance of one of the leading instructors of the Faculty.

Upon completion of the program the graduates become specialists with fundamental knowledge of mathematics, who know the methods of applied mathematics research, development and use of software and network in order to find effective solutions to various general scientific, management and applied problems.
