The education program prepares the graduates for the work in education (general, special, inclusive), social services and public health.

The program helps the students to develop skills that allow them professional activities such as psychological and educational support of pre-school, general, further and professional education; psychological and educational support of children with health limitations in special and inclusive education; social and education activities; teaching in pre-school educational institutions and primary schools.

Alongside developing professional skills, the students study disciplines that form general cultural competences and mould the world view of the future Bachelors.
