To participate in the summer school, we invite undergraduate and graduate students of Russian and foreign universities.

In the classroom we will study in detail problems of modern genetics, the production of resistant varieties with desired properties, the selection of optimal technologies for growing crops, both in open and protected ground, problems of food security in the era of globalization.

The summer school cultural program will also be interesting and informative: in their free time, students will be able to visit the Red Square, admire the views of the Zaryadye natural landscape park, the VDNKh, take a walk on the Central Park of Culture and Leisure.

The cost of training includes training on the program and excursions - 150 \$. During the course of study, it is possible to live in the student campus RUDN University: 50 € per week.
