

Acoustic Devices and Systems

Far Eastern Federal University

Degree or qualification is awarded: **Bachelor**

Language of study: **Russian**

Mode of study: **full-time**

Duration: **4 years**

Availability of free education: **yes**

Price: **210 000 rubles in year**

Programme webpage at the university website: <https://www.dvfu.ru/admission/program-bs/b/12.03.01.php>

Programme curator: **Artem Grachev**

Tel.: **+74232652424 (#2206)**

E-mail: interadmission@dvfu.ru

Instrument engineering is the area of activity aimed at the establishment and operation of a wide range of instruments, measuring systems, and complexes for the production and processing of information about everything in the world. This is a technical and information support of medical and technical diagnostics, quality control, standardization and certification of products, environmental monitoring, the development of devices and systems for underground, underwater, space communications, modern fishing devices, and systems, as well as devices and systems forecasting the natural and man-made disasters.
