The Center for educational programmes for international students offers preparatory courses to international students who wish to enter Lobachevsky University and attend the degree programmes in Russian.

The final examination in Russian language at the end of the preparatory courses is at the same time entrance examination for international students who wish to enter the first year of the University (the degree programme in accordance with the chosen field of study at the preparatory courses).

During the course students study Russian language as well as the basics of the main subjects corresponding to the selected field of study which are necessary to enter the chosen degree programme. These subjects help to expand student's specialized vocabulary and prepare to further studies on Specialist's Degree Programme. The preparatory programme includes 30 academic hours a week.

During the preparatory programme international students can be interviewed at the faculty of their interest and after that choose a research advisor.

Students will be assessed at the start of the course and organised into classes according to their level of Russian. All classes will be organized in groups.

Specializations within this programme

Medicine

During the course students study Russian Language, Scientific Style of Speech, Mathematics, Physics, Chemistry, Biology
