Advanced Russian Language Programme is addressed to students who know the Russian language and who want to improve their level of Russian as a foreign language.

To learn this course, you must speak Russian at a level no lower than B2.

The goal of the program is to develop practical skills in the Russian language, to consolidate the skills of using grammatical forms and syntactic constructions, to expand the lexical stock, to deepen knowledge of the functional styles of the Russian language.

At the end of the course, the student will be fluent in Russian, successfully communicate in Russian in various fields (educational, professional, official, social, cultural), construct statements in grammatically and stylistically correct form; use the Russian language in all areas of activity, including professional activities in Russian.

The course also includes a module of professional Russian.

The following directions of the module of professional Russian language are offered for Listeners:

- humanities
- economics
- natural science
- engineering
- biomedicine

Thus, the students choose the orientation of this module taking into account their professional preferences. Module of professional Russian language allows you to take the special vocabulary and grammar, characteristic of the language of a particular specialty.

Upon completion of the course, all students are invited to pass state testing in Russian as a foreign language and get a state certificate C1/C2.
