E-mail: epatarakin@hse.ru

This Master's programme is unrivalled Russia in that it provides in-depth knowledge that covers education, management and computer science. There are two tracks: digital transformation of management and teaching. Students learn how to make decisions with the correct use of data from various information systems; transfer-teaching processes taking into account the digital environment of a school or university, and conduct interdisciplinary research. Moreover, the programme is intended for those who work or plan to work in the field of education, launch high-tech educational start-ups, or develop digital transformation projects for academic institutions. The programme is implemented in partnership with MISIS, University 20.35, and Yandex and with the expert support of Microsoft.
