The purpose of the program takes into account the mission of SibFU, focused on providing a multi-level, innovative education and expanding in the SibFU the portfolio of both independent master's programs and together with leading foreign universities in terms of advanced English-language training of specialists in banking for financing, lending and promotion of production.

The program is aimed at training professionals with a high level of competence in the field of finance and credit, and developing students with professional and ethical knowledge in English in the field of banking, which will satisfy the demand for analysts in a wide range of financial and banking services.

Objectives of the program:

- analytical orientation in the professional development of students;
- future masters, recognized by both regional banking and international communities;
- strengthening of its applied character predetermined by long-term cooperation with Sberbank of Russia in the form of creating a basic department responsible for the high-quality graduation of masters, joint development of methodological and educational materials;
- organisation of training in English for all courses and training modules, participation in international projects;
- providing future masters with the possibility of phased professional certification, providing for the possibility of passing both national and international qualification exams.

Competitive advantages for the graduate:

as an advantage of this program, you should consider an agreement with the University of Siena (Italy) on the preparation of masters of dual diplomas in Finance and Credit, as well as more than twenty-five years of experience gained at the Institute of Economics, Management and Nature Management of SibFU for the implementation of main educational programs in Finance and Credit, Banking specialization. Employment: graduates can be employed in banking, fiscal, investment, regulatory and methodological and foreign economic activity. They can work in government at the federal, territorial and municipal levels, banks, exchanges, and foreign financial companies.
